

Bo Salazar

Heart of the Hawk

Bo has been committed to sideline medical for the high school football team for approximately 10 years, beginning when his oldest son was on the team.

Through 2 of his own children and countless others, he's remained consistent in quality care for our student athletes.

He is most concerned with their well-being and health but isn't afraid to nudge them along when necessary.

Bo is happy to give up his time, even traveling to almost all of the away games to be that constant support on the sideline and the most sought after "taper" of ankles, shoulders, or whatever ails you.
