

Danyail Comer

Heart of the Hawk

As a parent, so much of the school-age experience is colored by the parent cohort you're surrounded by. Do they volunteer to plan, set up, help out, clean up, or fundraise? Or do they assume "someone else" will take care of things. After all, we all have a LOT going on in our lives. The individual I am nominating for a Heart of the Hawk award does ALL the things that make working alongside her more fun and much more rewarding. And she does them in the mist of so many other demands on her time.

Danyail Comer is an extremely loyal friend, an enthusiastic collaborator, and takes the initiative to make EVERYTHING she touches better. She is a fantastic role model for our students, parents, and community members.

Thank you for your continued contributions to making this community, our schools, and our programs something we can all be proud of.
