

# Lori Foster

## Heart of the Hawk

Lori was my long-term sub at the beginning of the school year.

She went above and beyond getting my class up and running. Not only did she communicate regularly with me about the curriculum, she went out and actively found additional information to enhance what I had planned.

Lori uploaded assignments, graded classwork and made it as easy as possible for me to concentrate on healing.

She is conscientious in her work, dedicated to the education of the kids and a wonderful example of quiet leadership.

I am very lucky to have had her at the helm of my classroom in this trying time.
